

Requirements

- Degree in Computer Science, Engineering, or related field
- 3–5+ years of relevant experience in full stack and cloud development

Core Technical Skills:

- Strong full stack experience:
 - Frontend: React / Angular / Vue
 - Backend: Node.js / Python / Java / PHP
- Experience with **AWS cloud-native architecture**
- API development experience (REST + GraphQL)
- Strong proficiency in **PHP 7/8**
- Experience with PHP frameworks such as **Laravel, CodeIgniter, Symfony, or similar**
- Solid understanding of **HTML, CSS, JavaScript**
- Experience with relational databases such as **MySQL / PostgreSQL**
- Knowledge of version control systems (e.g. **Git**)
- Familiarity with REST APIs and MVC architecture
- Understanding of secure coding practices
- Strong problem-solving and debugging skills
- Experience with **Laravel ecosystem** (Eloquent, Blade, Artisan)

Totara / LMS Experience

- Experience working with **Totara LMS or Moodle-based platforms**
- Hands-on experience with:
 - GraphQL APIs
 - LMS customisation (plugins, themes, workflows)
- Understanding of LMS concepts:
 - Learning paths, certifications, compliance tracking

Note: Totara uses a **GraphQL-based API model with extensibility for custom services**, making API-driven integration a core competency

DevOps & Engineering Practices

- CI/CD pipelines and Git workflows
- Infrastructure as Code (CloudFormation / Terraform)
- Containerisation (Docker, Kubernetes preferred)
- Secure coding and DevSecOps practices

Nice to Have:

Experience with:

- Amazon Connect / AI-driven platforms (for digital concierge use cases)
- Data analytics (QuickSight, Redshift)
- Event-driven architectures

Exposure to:

- Multi-tenant SaaS architectures
- Enterprise integration tools (e.g., Workato)

Soft Skills

- Strong problem-solving and analytical thinking
- Ability to work in cross-functional teams (EA, DevOps, Business)
- Clear communication with both technical and non-technical stakeholders

What Success Looks Like

- Successfully deliver scalable AWS-based applications
- Seamlessly integrate and extend Totara LMS
- Maintain high system reliability, security, and performance
- Contribute to enterprise architecture and platform evolution
